EDUCATION

San Francisco State University, San Francisco, CA
Bachelor of Science, Computer Science

Expected Dec 2023

Certification

Google UX Design Professional Certificate

June 2023 - July 2023

- Completed seven courses in UX research, wireframing, and prototyping (using tools like Figma and Adobe XD) with three project-based certifications.

WORK EXPERIENCE

Edwards Life Science, Irvine, CA

Oct 2021 - Dec 2022

UX/UI Designer, Intern

- Analyzed and addressed planning, supply chain, marketplace, and consumer needs within cross-functional teams, fostering an agile work environment.
- Effectively translated and handed off design files to the Engineering team for seamless implementation.

Projects:

CareHub (Figma, Photoshop)

Product Designer

- Defined problems clearly and articulated use cases, enhancing design systems and user flows.
- Conducted in-depth user research and utilized personas to drive the design process, ensuring a user-centric product.

Construction Website for mdmzco.com (HTML, CSS, JavaScript React Node.js)

UX/UI Developer

- Conducted usability testing to gather feedback and iteratively enhance the website's usability and accessibility.
- Led the user experience and interface design for a construction website, employing research and personas to tailor the site for the local construction audience effectively.

Payment App (React, NodeJS, MongoDB, CSS)

UI/UX Frontend Developer

- Collaborated closely with the design team to ensure elegant interaction designs and effective information architecture for an optimal user experience.
- Led the front-end development with a user-focused approach, emphasizing a seamless and intuitive payment interface.
