EDUCATION

San Francisco State University, San Francisco, CA   Expected Dec 2023
Bachelor of Science, Computer Science

Projects:

CareHub (Figma, Adobe Photoshop)
product designer
- Stayed up-to-date with emerging trends in GUI design to ensure designs were modern and innovative
- Designed the user interface and user experience for a mobile app using Figma and Adobe Photoshop.

Photo Management Website (NodeJS, Express JS, MySQL, CSS, HTML)
Backend And Frontend Developer
- Established a photo management website that allowed users to post, search images, view, and comment on individual image posts
- Built a secure website backend with NodeJS and MySQL for user activity data storage

WORK EXPERIENCE

Edwards Life Science, Irvine, CA   Oct 2021 - Dec 2022
GUI Testing Intern
- Collaborated cross-functionally with the UX/UI and engineering teams to conceptualize and implement a user-friendly solution, resulting in an enhanced user experience
- Conducted thorough testing of the software and provided detailed feedback to developers and worked with them to fix design issues, ensuring optimal functionality and user experience

Volunteer Experience:

California State University, Fullerton   Jun 2023 - July 2023
Team Member - Data Science and Machine Learning Project
- Collaborated with a three-member team to apply machine learning techniques, specifically Linear Regression, in a data science project aimed at predictive modeling.
- Actively foster a collaborative team environment, sharing machine learning knowledge and engaging in group discussions to drive innovative solutions and project success.

SKILLS

- **Tools:** Figma, Adobe Photoshop, Word, Excel, PowerPoint, MS Teams
- **Programming Languages:** C++, CSS, HTML, NodeJS, Python, Javascript
